Subject: Re: Petroglyph Well Questions

Hello Mike & Bruce,

I have a list of our active injectors by permit, but I am unable to get to it right now. I will look into it first thing in the morning and let you know what I find.

Thanks,

Rodrigo

We do not have 18-13a or 18-13b.

We do have 18-12 and 18-13.

I don't have a quick way to look up permits numbers, but maybe Rodrigo can help you

Mike

Mike/Jessie,

We are undergoing a permit-file revision process, and Tom, our key person involved with this project, noticed a couple of inconsistencies in our files. We thought we'd check with you to see if we can get the inconsistencies resolved:

1. Does Petroglyph have one well named Ute Tribal 18-13, or are there two separate wells named 18-13a and 18-13b?

2. Our permit files have the following (Permit Number/Well Number):

UT20736-06680, file is for the Ute Tribal 18-12 well.

UT20736-04411, file is for the Ute Tribal 18-13a well, but includes the 18-12 well information.

UT20736-04392, file is for the Ute Tribal 18-13b well.

Our database shows the 18-13a and 18-13b wells having the same API number (43-013-31784) and footage calls.

Can you help us clarify these discrepancies? Thanks – we are interested in knowing what you show as the permit/well number connections.

Please “reply to all” as Tom is copied on this.
